Projects:

Sara Rangel art e-commerce site:
GatsbyJS, Tailwind Css, Styled Components, node, Stripe, GraphQL

- The start of an e-commerce site for a local artist in San Antonio Sara Rangel
- Independently developed with intention to have full credit card support using stripe and its convenient pay portal
- Created a fun place for potential art connoisseurs to find and purchase art projects from any location on the globe

Crypto Web Scraper:
Next.JS, styled components, coin gecko API

- Developed an application that tracks the current crypto currency market. Based on recent data, 50 Million Americans are likely to buy some form of crypto currency.
- Created this application to use the API CoinGecko for data such as live pricing. Trading volume, tickers, exchanges, historical data among other things.
- Composed this app to make one 100% more effective at tracking the crypto market.

LepaleFox Vintage
ReactJs, graphQL,Node,MongoDB,stripe

- Nostalgia rules the fashion cycle but each generation is different; while Millenials hang onto 90s trends Gen Z finds comfort in the not-too-distant styles of the early 2000s.
- Lepale fox vintage is an e-commerce platform in development that aims to let users buy or sell vintage clothing. Increasing the sustainability of clothing for generations to come.
